

Rorze Robot 711/713 Refurbishment

Refurbishment Part number: RBT-REFURB-713

esl 
service is solution

- German refurbishment center
- Comprehensive refurbishment
- Test in production tool / test jig
- Including 6 months warranty
- Long term reliability testing
- Short turnaround time
- Low shipping cost

A comprehensive Rorze 713 refurbishment program is now available at ESL. This complete refurbishment ensures that production reliability requirements will be achieved.

All major mechanically moving parts are exchanged. Testing of the Rorze Robot is essential. ESL has developed a Robot test jig to simulate the positions and stations which the robot must drive reliable and accurately. The long term test on this jig ensures that every the refurbished robot meets the highest standards.

A rugged transport case is used to prevent any shipping eventualities. A special ESL frame holds the arms securely in place and allows easy robot installation and removal.

- **Model affected**

Rorze Robots Model 713
